

"Up-Stairs"

- How to build this paper fold:
- 1) Score with a blunt tool all dashed (green and red) lines.
 - 2) Cut all solid (black) lines with a craft knife, including cutting this instruction strip off.
 - All green lines are hill-folded, all red lines are valley-folded.
 - 3) Start slowly working your way to ever sharper creases.
 - 4) Eventually you will get this paperfold just so!
